SUBJECT: 12 September PFIAB Meeting

The DCI will be the first speaker at the meeting. Max Kampleman will be joining the members for lunch to talk about the goings on in Geneva. In the afternoon, Haver (Deputy Dir. of Naval Intelligence) will be discussing the Walker case. Finally, Ken De Graffenreid will appear to discuss the status of the CI proposals which were the topic of an NSC meeting in August which the DCI attended. I gather that there may be some relationship between these proposals and a paper the PFIAB produced a couple of years ago.

SUBJECT: PFIAB Mtg on 12Sep

Since we have not had time to discuss this, and time is marching against both of us I thought I'd share some quick thoughts here.

As I now understand it, the PFIAB would like the DCI to address 3 issues -- 1) the Philippines crisis; 2) intelligence support to the upcoming summit [REDACTED]

It seems to me that since the PFIAB is basically in the turf of the ExDir, and with him gone, that office should have time to prepare the book and any personnel support the DCI may need for this meeting.

We could provide some backup material from our last 2-3 weekly books, but I strongly recommend that [REDACTED] be "allowed" to manage pulling things together otherwise. Next week is going to be incredibly tight as is -- 3 regular books, 2 speeches, my processing out, [REDACTED] trying to get settled in. I think we could all forgo an additional administrative burden. What think ye on this?
